---

## PROFESSIONAL EXPERIENCE

### Full-Stack Developer Intern

DevelopersHub Corporation, Karachi

[November 2025] – [January 2026] (*Completion certificate pending*)

- Developed a full-stack e-commerce application using React, Node.js, Express.js, and MongoDB.
  - Designed RESTful backend APIs for product management, authentication, admin-protected routes, and cart logic.
  - Applied MVC architecture with secure API design and clean folder structure.
  - Integrated Cloudinary for media handling and JWT for authentication.
  - Managed version control via GitHub.
-

## Freelance Backend Developer

### Self-Employed | Remote

- Developed backend for a caretaker booking system using Node.js, Express.js, and MongoDB.
  - Implemented complete booking lifecycle (Pending, Accepted, Rejected, Completed).
  - Automatically created private chat rooms after booking acceptance, linked with Parent ID, Caretaker ID, and Booking ID.
  - Built persistent text-based chat with read-only access after booking completion or cancellation.
  - Ensured chat privacy by restricting access to authenticated dashboards only.
  - Designed scalable MongoDB schemas for chats and notifications without real-time dependency.
- 

## EDUCATION

### BS Computer Science (6th Semester)

Sindh Madressat-ul-Islam University, Karachi

2023 – 2027 (*Expected*)
